

U.S. Navy Blue Angels

Fat Albert Rider Program Medical Screening

Name

Date

1. Fat Albert provides a dynamic demonstration of the capabilities of the C-130 aircraft when flown by a highly trained military aircrew. In order to safely ride aboard Fat Albert without prior medical screening by a physician, you must meet certain medical requirements.
2. Not meeting these requirements does not disqualify you from flying aboard Fat Albert; however you will be required to be medically cleared by the Blue Angels’ flight surgeon prior to your flight. Due to time constraints, you must allow 24 hours to meet with the flight surgeon and obtain this approval.

General		
	Yes	No
Are you between the ages of 18 – 65? If not, what is your age? _____
